Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The amendment filed on 2/1/2006 has been entered. Claims 1-20 remain for examination.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Mobed et al. (Mobed et al. – 20050283435; herein after referred to as Mobed).

Regarding claims 1 and 11, Mobed discloses the claimed a system and method for obtaining online instant approval for the vendor-sponsored credit card. According to Mobed, an intermediary system 340 is serving as a host for communicating a merchant application to a credit card issuer 360. The credit card issuer provides an instant approval for the application via the intermediary system 340 to the vendor site 320 (see paragraphs 0052 to 00523). As can be seen, Mobed discloses the claimed invention.

Regarding claims 2 and 12, see the discussions in paragraphs 0012, 0017, 0026, 0037, 0039, 0042, and so on for various discussions of the use of websites, interned based portal, etc., and thus would embrace all limitations set forth in this claim.

Regarding claims 3 and 13, Mobed discloses the system and method of approving a vendor-sponsored transaction card online utilizing the Internet as described in paragraphs 0013, 0037, 0038, 0039, 0042 which would contain a file transfer protocol; and thus would embrace all limitations set forth in this claim.

Regarding claims 4 and 14, Mobed's system utilizes a secure file transfer protocol (see abstract, paragraph 005); and thus would embrace all limitations set forth in this claim.

Regarding claims 5 and 15, Mobed discloses the system and method for instant online vendor sponsored credit card system which approves a vendor's submitted

application for a transaction card within 30 seconds (see paragraph 0052); and thus would embrace all limitations set forth in this claim.

Regarding claim 6, see the discussions above regarding claims 1-5. Further, see the abstract, paragraph 0051 and others for the descriptions of the non-approved applications.

Regarding claim 7, see the discussions in paragraph 0007 for the “loyal”, “frequent flyer”, and co-branded transaction cards. Such a system provides customers or users incentives by keeping track of spending history, transaction history, etc., and thus would embrace all limitations set forth in this claim.

Regarding claims 8-10 and 16-20, all limitations have been discussions regarding claims 1-7 (further see paragraph 0052).
